

# Protocol from 08-11-04

## **Participants:**

All group members.

## **Agenda:**

- **Opening**
- **Gameplay test**
- **End of Meeting**

**Chairman:** Anton Larsson

**Secretary:** Bo Isaksson

## **Gameplay test:**

During this meeting we tested the gameplay the best we could.” Playing” the game on a whiteboard.

We had problem testing the combat part of the game because we would have needed the actual game for that.

## **Conclusion:**

The changes we made for the gameplay where about the zone values. All other gameplay-features worked well to the extent we could test them.
